

# Definitions

---

- Project: SellBackMart

## List of Definitions

- User: A UofM student. Name and UofM email will be required to create a user account. A User can simultaneously be a Buyer and a Seller.
- Buyer: A User who is interested in buying an item from a Seller, or who is buying/has bought an item.
- Seller: A User who is selling an item.
- Visitant: A potential User to the website who has not registered an account yet.
- Item/product categories: initially it will have 3 categories: Textbooks, School supplies and Electronics. More categories could be added later.
- Item: the following information is required when selling an item:
  - Category (pick from list of choices)
  - Condition (New/Used)
  - Price
  - Additional info (optional, up to the seller to fill out or not)
- Textbook: if an item belongs to the textbook category, it will have author, title, version, and ISBN.
- Seller Review: feedback that a Student can post about a Seller, to tell people about his/her experience with that Seller.
- Watchlist: A list of categories / items the Buyer wants to receive updates about.
